Erich Seamon and Associates LLC

Geographic Information Systems analysis development design

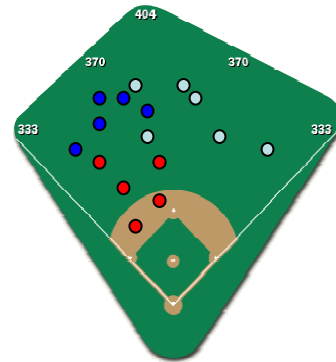

ESA 2009 Datasheet **COMMERCIAL**

ESA Commercial Services

ESA has extensive experience in analyzing and implementing GIS solutions for government organizations, including cities, counties, states, and regional utilities. ESA is a certified ESRI business partner – and provides best-practice approaches to GIS and project management. ESA has staff that are **GISP** and **PMP** certified.

ESA Geographic Sport Analytics

ESA provides technology and geospatial services in all areas of government – but we have particular experience in the following areas:

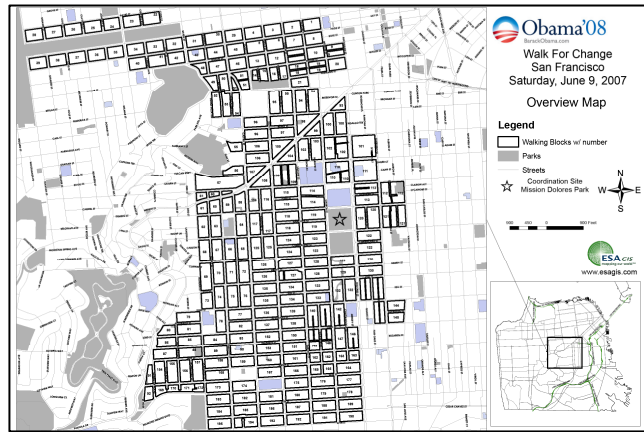

ESA Voter and Campaign Management

ESA's GeoSpatial ToolKITS are packaged solutions for focused government areas that use GIS frequently. ESA's ToolKITS in the above areas allow governments to use a set of procedures, processes, and documentation to organize their functionally-specific GIS information.

Contact ESA for more information on Commercial GIS Services

ESA has extensive experience in understanding unique business-related GIS problems. Please see [ESA's 2009 Rate Schedule](#) for hourly rates, or please contact us at **415.315.9020** for more information.
